## "Mini" Sanitary Pressure Gauge

- The only sanitary gauge that mates directly on 3/2" and 1" lines
- Autoclaveable w/Standard CPM fitting
- Lowest profile of any "mini" gauge
- Minimal temperature effect
- Re-zero feature is standard

Anderson is pleased to announce the latest addition to our extensive line of pressure measurement products, the "Mini" gauge! This gauge has been developed to address the growing number of biopharmaceutical applications that require a smaller gauge dial and a fractional sanitary fitting. This new product meets both criteria with its low profile 2.5" (63mm) case and standard 3/4" Tri-Clamp® fitting.

The gauge is designed for use at process temperatures up to 140°C(284°F) and to withstand repeated inline sterilization at up to 149°C(300°F). Our new back access re-zero adjustment is a standard feature on all models.

When ordered with the Anderson CPM fitting, the gauge is autoclaveable at 149°C(300°F) for one hour.

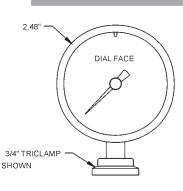

The "Mini" gauge is also the only sanitary gauge

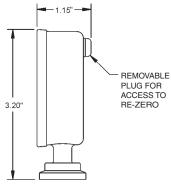

available with a true one-inch tri-clamp fitting, eliminating the long standing problem of instrumenting one-inch lines. This unique fitting will accept a one-inch gasket without impinging on the diaphragm.

Complete specifications and ordering information are available on the reverse. For more information please visit our Web Site at www. andinst.com, or contact your local Authorized Anderson Distributor.

### "Mini" Gauge Specifications

#### **Typical Performance**

### **Construction/Finish**

Over-Range Capability: Accuracy:	at least 25% of full scale $\pm$ 1.5% F.S. from 10-90% of scale	Diaphragm and Fitting:	Welded 316 "L" grade stainless steel, electropolished to max. R <sub>a</sub> 8 micro-inches (0.2 microns)
	(pressure ranges) ± 1.5% F.S. from 10-90% of pressure range, ±2.0" Hg from 0-25" Hg	Bourdon Tube/Socket:	304 stainless steel, welded
	(compound ranges)	Movement:	Stainless steel
Repeatability:	$\pm$ .50% of full scale	Case/Bezel:	304 stainless steel, satin finish to $R_a max = 32 micro-inches$
Linearity:	± .50% of full scale	Lens/Crystal:	Lexan <sup>®</sup> polycarbonate
Hysteresis:	$\pm$ .50% of full scale	Lens, orystal.	
Stability:	Within specified accuracy for 6 months under normal operating conditions	Actuating Fill:	100% mineral oil. Meets FDA requirements (21CFR, 172.878 and 178.3620(a))
		Optional Case Fill:	100% USP grade Glycerin
Process Temperature Limits:	-3° to 140°C (25° to 284°F)	Standards:	Designed and manufactured to
Ambient Temperature Limits:	4° to 49°C (40° to 120°F)	Glandards.	sound engineering practices in accordance with Article 3.3 of the
In-line Steam Sterilization Limits: 149°C (Up to 300°F) for 1 hour			PED 97/23/EC
Temperature Effect:	From 10-90% of pressure scale, less than ±1.25% F.S. per -12°C (10°F)	Environmental Rating:	NEMA 4X-IP66
	change in process or ambient	Dimensions	
		Case Diameter:	2.48" (63mm)
Autoclave Temperature Limit:	149°C (300°F) for 1 hour (CPM fitting and unfilled case only)	Overall Height: Case Depth:	3.20" (81mm) 1.15" (31 mm)
