THE MOST ADVANCED  
 PFA HOSE CONCEPT FOR EX-ZONES  
 No source of ignition... exceeding the norm

**Antistatic smooth-bore PFA lined hose for:**

**Pharmaceutical Industries  
Fine chemical Industries  
Petrochemical Industries  
Cosmetic Industries  
Biotech Industries  
Food Industries**

**PATENTED**

**Hose benefits:**

**Electrical "FULL-OHM" design EN 12115**

**Food validation of liner and cover**

**High purity of materials**

**Outstanding impermeability of the antistatic PFA**

**Non-stick ultra smooth inner and outer surface**

**Non-particle generating cover (compared to standard cloth finish)**

**Easily cleaned outer cover (with any solvent)**

**High resistance to thermal stress**

**Superior flex performance**

**No risks of polluting the medium**

**DYNAMIC™ SAFE-TECH**

**Full Ω**

- Universal "Full Ohm" hose specifically designed to handle cosmetic, pharmaceutical and highly flammable chemical products in working areas requiring maximum safety.
- Engineered to ensure the dissipation of electrostatic currents not only superficially, but also through the hose wall (Resistivity  $< 10^5 \Omega$ ).
- Fluorinated, ultra smooth, antistatic liner of the newest generation ensuring utmost degree of impermeability, resistance to dynamic stress and hygienic delivery of the medium.
- Unique marbled cover, antistatic and FDA food approved, with utmost chemical resistance.
- Patented by MTG.

Available in sizes: 13-19-25-32-38-51-63,5-76-100 mm I.D.

**DYNAMIC® SAFE-TECH Full Ω**
